

ISTRUZIONI DI MONTAGGIO
ASSEMBLING INSTRUCTIONS
NOTICE DE MONTAGE

**PROGRAMMI
COMPLEMENTI**

T.02 - Fissaggio base portalavabo	pag.5
T.03 - Fissaggio base laterale	pag.6
T.04 - Fissaggio base a giorno	pag.8
T.05 - Fissaggio elementi pensili	pag.9
T.06 - Fissaggio mensole	pag.10
T.07 - Montaggio Banconi Audace	pag.11
T.08 - Fissaggio zoccolo portalavatrice	pag.12
T.09 - Fissaggio fascia maniglia Giusto	pag.13
T.10 - Fissaggio pannelli di finitura	pag.14
T.11 - Fissaggio accessori Arock®	pag.15
T.12 - Fissaggio piani	pag.16
T.13 - Montaggio lavabi (appoggio/soprapiano/sottopiano)	pag.17
T.14 - Fissaggio specchi	pag.20
T.15 - Fissaggio lampade (avvitate/pinzate)	pag.21
T.16 - Montaggio piletta e sifone	pag.22
T.17 - Montaggio piedini e zoccolo	pag.23
T.18 - Regolazione premi-apri ante	pag.24
T.19 - Regolazione ante	pag.25
T.20 - Regolazione cassette	pag.26
T.21 - Regolazione ribalta pensili	pag.27

T.02 - Fitting of the base unit / <i>Installation du meuble sous-vasque</i>	pag.5
T.03 - Fitting of the side unit / <i>Installation du meuble latéral</i>	pag.6
T.04 - Fitting of the open-fronted unit / <i>Installation l'élément ouvert</i>	pag.8
T.05 - Fitting of wall units / <i>Installation des éléments hauts</i>	pag.9
T.06 - Fitting shelves / <i>Installation des étagères</i>	pag.10
T.07 - Fitting of benches range AUDACE / <i>Installation des bancs gamme AUDACE</i>	pag.11
T.08 - Fitting of the toe-kick / <i>Installation du socle du meuble</i>	pag.12
T.09 - Fitting of GIUSTO handle profile / <i>Installation du profil poignée gamme GIUSTO</i>	pag.13
T.10 - Fitting of side finishing panels / <i>Installation des panneaux latéraux de finition</i>	pag.14
T.11 - Fitting of Arock® accessories / <i>Installation des accessoires en Arock®</i>	pag.15
T.12 - Fitting of tops / <i>Installation des plans</i>	pag.16
T.13 - Fitting of basins / <i>Installation des vasques</i>	pag.17
T.14 - Fitting of mirrors / <i>Installation des miroirs</i>	pag.20
T.15 - Fitting of lamps / <i>Installation des lampes</i>	pag.21
T.16 - Fitting of drain collectors and siphons / <i>Installation des bondes et des siphons</i>	pag.22
T.17 - Fitting of toe-kicks and feet / <i>Montage des pieds et des socles</i>	pag.23
T.18 - Adjustment of Push To Open system for doors / <i>Réglage du système Push To Open des portes</i>	pag.24
T.19 - Adjustment of doors / <i>Réglage des portes</i>	pag.25
T.20 - Adjustment of drawers / <i>Réglage des tiroirs</i>	pag.26
T.21 - Adjustment of lift-up doors / <i>Réglage des portes à abattant pour armoires murales</i>	pag.27

Fitting of basin cabinets / *Installation du meuble sous-vasque*

1 Togliere il mobile dall'imballo e rimuovere i cassetti

Unpack the cabinet and remove the drawers

Enlever le meuble de l'emballage et retirer les tiroirs

2 Fissare il mobile alla parete

Fastening of the cabinet against the wall

Fixer le meuble au mur

Fitting of the side unit / Installation du meuble latéral

1 Togliere il mobile dall'imballo e rimuovere i cassetti

Unpack the cabinet and remove the drawers

Enlever le meuble de l'emballage et retirer les tiroirs

2 Fissare gli attacchi alla parete

Fastening of the wall fixation plates

Fixation des supports au mur

3 Fissare il mobile alla parete

Fastening of the cabinet against the wall

Fixation du meuble au mur

Fastening of the side cabinet / *Fixation du meuble latéral*

4 Regolazione del mobile

Cabinet adjustment / *Réglage du meuble*

NB Per lo sgancio utilizzare un cacciavite

For the uncoupling use a screwdriver. Apply pressure to the tab and detach the cabinet simultaneously / *Pour le décrochage, utiliser un tournevis, exercer une pression sur la languette et en même temps décrocher le meuble*

Fitting open-fronted cabinets / *Fixation élément ouvert*

1 Togliere il mobile dall'imballo

Unpack the cabinet

Enlever les meubles de l'emballage

2 Fissare il mobile alla parete

Fastening of the cabinet against the wall

Fixation l'armoire au mur

Fitting of wall units / Installation des éléments hauts

Segnare sul muro gli angoli del mobile da fissare

Mark on the wall the corner of the piece of furniture
Marquer les extrémités du meuble à accrocher avec un crayon

Fissare gli attacchi come indicato

Fasten the support plates as shown in the picture
Fixer les supports comme indiqué à la figure

Regolare e chiudere con tappo in dotazione

Adjust and close with the proper cover plate
Régler et fermer avec le cache fourni

Fitting of wall shelves / Fixation des étagères

Rilevare numero e posizione dei fori

Determine the number and distance of the holes on the shelf
Déterminez le nombre et la distance des trous

Utilizzando una livella segnare la posizione sulla parete

Mark the position on the wall with the help of a spirit level
Marquer la position sur le mur à l'aide d'un niveau à bulle

Forare e fissare i reggimensola

Drill and fix the support bracketest
Percer et fixer le supports

Fissare la mensola calzandola nei reggimensola

Fix the shelf inserting the supports in the holes
Fixer l'étagère en insérant les supports dans les trous

Fitting of work benches range AUDACE / Installation des bancs de travail gamme AUDACE

Inserire i piedini regolabili

Insert the adjustable feet
Insérer les pieds réglables

Avvitare i perni al piano e inserire le spine.

Fissare il piano ruotando gli eccentrici

Screw in the pivots onto the top and insert the dowels
Visser les pivots au plan et insérer les chevilles

Fissare le squadrette posteriormente come indicato

Fix the bearing angles in the back corners as shown in the picture
Fixer les équerres de maintien dans les angles du dos comme indiqué à la figure

Fitting of the toe-kick for washing machine cover units / *Fixation socle du meuble latéral pour machine à laver*

1 Agganciare lo zoccolo alla base utilizzando gli appositi ganci

Attach the toe-kick to the unit using the proper hooks / *Fixer le socle au meuble en utilisant les crochets fournis*

2 Fare attenzione al posizionamento

Check for the correct positioning / *Faites attention au positionnement*

Togliere il mobile e la fascia maniglia dall'imballo

Unpack the cabinet and the handle profile
Déballer le meuble et le profil poignée

Fissare il profilo maniglia agli appositi ganci

Fix the handle profile to the proper hooks
Fixer le profil poignée à les crochets prévus

Se necessario aiutarsi con una mazzetta di gomma

If necessary help yourself with a rubber mallet
Quand nécessaire on peut utiliser un mallet en caoutchouc

Fitting of side finishing panels / *Installation des panneaux latéraux de finition*

1 Affiancare il pannello di finitura al mobile e avvitarlo

Place the finishing panel in position and screw it to the cabinet

Placer le panneau de finition à côté du meuble et vissez-le

ATTENZIONE! NON UTILIZZARE L'AVVITATORE!

ATTENTION! DO NOT USE THE ELECTRIC SCREWDRIVER!

ATTENTION! N'UTILISEZ PAS LA VISSEUSE ÉLECTRIQUE!

Fitting of Arock® accessories / Installation des accessoires en Arock®

Rilevare numero e posizione dei fori

Determine the number and distance of the holes
Déterminez le nombre et la distance des trous

Utilizzando una livella segnare la posizione sulla parete

Check the alignment with a spirit level
Vérifier l'alignement à l'aide d'un niveau à bulle

Forare, inserire i perni e fissare gli accessori

Drill and insert the pivots
Percer et insérer les pivots

Consigliato l'utilizzo SPARTAN® o silicone neutro (non acetico) per il fissaggio del pomolo.

The use of SPARTAN® or neutral silicone (non-acetic) is recommended for the sealing of the knob.
L'utilisation de SPARTAN® ou d'un silicone neutre (non acétique) est recommandé pour la fixation du bouton.

Fitting of tops / Installation des plans

**Utilizzare SPARTAN® o silicone neutro (non acetico)**

Seal with SPARTAN® or neutral silicone (non-acetic)

Utiliser SPARTAN® ou du silicone neutre (non acétique)

**Stendere il sigillante sulle superfici dove andrà fissato il top**

Spread the silicone on the surfaces where the top will be placed

Étaler le silicone sur les surfaces où on va poser le plan

**Posare ed allineare correttamente il top**

Lay down and align the top properly

Poser et aligner correctement le plan

**Adagiare una protezione e dei pesi sugli angoli del top ed attendere l'asciugatura**

Cover the top with a protection surface and place some weights on the corners. Wait until the silicone is completely dry

Placer une surface de protection sur le plan et poser des poids.

Laisser sécher le silicone

Fitting sit-on basins / Fixation des vasques à poser

1
**Utilizzare SPARTAN®
 o silicone neutro
 (non acetico)**

Seal with SPARTAN® or neutral
 silicone (non-acetic)
*Utiliser SPARTAN® ou du
 silicone neutre (non acétique)*

2
**Stendere il sigillante sulle
 superfici dove andrà fissato
 il lavabo**

Spread the silicone on the
 surfaces where the basin will be
 placed
*Étaler le silicone sur les surfaces
 où on va poser la vasque*

3
**Posare ed allineare
 correttamente il lavabo**

Lay down and align the basin
 properly
*Poser et aligner correctement
 la vasque*

4
**Sigillare le parti retrostanti per evitare
 infiltrazioni**

Seal the back parts to avoid infiltrations
*Faire l'étanchéité des parties arrière afin
 d'éviter les infiltrations*

5
**Adagiare una protezione e dei pesi sugli
 angoli del lavabo ed attendere l'asciugatura**

Cover the basin with a protection surface and place
 some weights on the corners. Wait until the silicone is
 completely dry
*Placer une surface de protection sur la vasque et poser
 des poids sur les angles. Laisser sécher le silicone*

Fitting of recessed basins / Installation des vasques encastrées surélevées

Utilizzare SPARTAN® o silicone neutro (non acetico)

Seal with SPARTAN® or neutral silicone (non-acetic)

Utiliser SPARTAN® ou du silicone neutre (non acétique)

Stendere il sigillante sulle superfici dove andrà fissato il lavabo

Spread the silicone on the surfaces where the basin will be recessed.

Étaler le silicone sur les surfaces où on va encastrer la vasque

Posare correttamente il lavabo

Lay down and align the basin properly

Poser et aligner correctement la vasque

Adagiare una protezione e dei pesi sugli angoli del lavabo ed attendere l'asciugatura

Cover the top with a protection surface and place some weights on the corners of the basin. Wait until the silicone is completely dry

Placer une surface de protection sur la vasque et poser des poids sur les angles. Laisser sécher le silicone

Fitting of undermounted basins / Installation des vasques en profondeur

Montare i supporti
Fix the proper supports
Fixer les supports

Rilevare l'altezza del lavabo ed effettuare una prima regolazione
Determine the basin's height and make a first adjustment
Determiner l'hauteur de la vasque et faire un premier réglage

Appoggiare il lavabo sui supporti e procedere alla regolazione
Lay down the basin on the supports and proceed with the adjustment
Poser la vasque sur les supports et procéder avec le réglage

Utilizzando una livella,effettuare la regolazione ruotando i perni
With the help of a spirit level, carry out the adjustments by turning the pins
A l'aide d'un niveau à bulle, effectuez les réglages en tournant les broches

Utilizzare il sigillante dove andrà fissato il top
Seal with neutral silicone
Utiliser du silicone neutre

Adagiare il top ed allinearlo correttamente
Lay down and align the top properly
Poser et aligner correctement le plan

Appoggiare dei pesi e attendere l'asciugatura
Place some weights and wait for drying
Poser des poids et attendre pour le séchage

Fitting of mirrors / Fixation des miroirs

Rilevare dallo specchio le quote di installazione. Segnare con l'aiuto di una livella i punti di foratura

Verify all installation quotas and mark the drilling points with the aid of a spirit level
Relever les dimensions d'installation sur le miroir. Marquer les points de perçage à l'aide d'un niveau

Forare la parete e fissare i cancelli

Drill the wall and anchor the fixation brackets
Percer le mur et fixer les crochets

Agganciare lo specchio

Hang the mirror onto the wall
Accrocher le miroir au mur

Per la regolazione verticale utilizzare un cacciavite

Use a screwdriver to adjust vertically
Pour le réglage en vertical, utiliser un tournevis

Fitting of lamps (screwed/stapled) / Installation des lampes (vissées/pincée)

Fissaggio lampade avvitate / Fitting of screwed lamps / Fixation des lampes vissées

Posizionare la lampada e fissarla allo specchio

Place the lamp and fix it to the mirror
Positionner la lampe et fixer-la au miroir

Fissaggio lampade pinzate / Fitting of stapled lamps / Fixation des lampes pincées

Togliere le viti sul retro

Remove the screws on the back
Enlever les vis sur le dos

Rimuovere il piedino di supporto

Remove the support feet
Enlever le pied de support

Posizionare la lampada e fissarla con le viti tolte in precedenza

Place the lamp and fix it with the screws previously removed
Placer la lampe et fixer-la en utilisant les vis enlevées antérieurement

- (1) Piletta CLICK-CLAP**
- (2) Guarnizione bianca**
- (3) Guarnizione trasparente bombata**
- (4) Ghiera della piletta. Serrarla senza applicare troppa forza**

- (1) CLICK-CLAP plug
- (2) White washer
- (3) Transparent curved washer
- (4) Waste ring nut. Fix it not too strongly

- (1) Bonde CLICK-CLAP*
- (2) Joint blanc*
- (3) TJoint transparent bombé*
- (4) Anneau de la bonde. La fermer sans appliquer trop de force*

Fixing of toe-kicks and feet / Montage des pieds et des socles

Inserire la bassetta nel foro predisposto sul fondo della base

Insert the base plate into the hole provided on the bottom of the base unit

Introduire la base à expansion dans le trou sur le fond de la base

Bloccare il perno facendo pressione con il martello

Fix the pin pressing it with the hammer

Fixez la broche relative en appuyant avec le marteau

Inserire il piedino regolatore a pressione nella bassetta

Insert the furniture foot into the base plate

Introduire le régulateur de tige dans la base à expansion

Regolare i piedini per livellare l'elemento

For leveling the element, tighten or unscrew the furniture foot

Visser ou dévisser les pieds de réglage pour niveler l'armoire

Inserire il gancio nella scanalatura dello zoccolo

Insert the hook into the slot of the toe-kick

Insérer le crochet dans la fente du socle

Agganciare prima gli zoccoli laterali

Hook the lateral toe-kicks first

Accrocher d'abord les socles latéraux

Adjustment of Push To Open system and doors / *Réglage des systèmes Push To Open et des portes*

1 Individuare il magnete per la regolazione dell'anta

Spot the magnet for the door adjustment / *Détecter l'aimant pour le réglage de la porte*

2 Ruotare il magnete per regolare la distanza dell'anta

Turn the magnet to adjust the door distance / *Tourner l'aimant pour régler la distance de la porte*

Adjustment of doors / Réglage des portes

1 Regolazione cerniere delle ante

Adjustment of the door hinges / Réglage des charnières de porte

Adjustment of drawers / *Réglage des tiroirs*

1 Inserire i cassetti

Insert of the drawers / *Insérer les tiroirs*

2 Regolazione dei cassetti

Adjustment of the drawers / *Réglage des tiroirs*

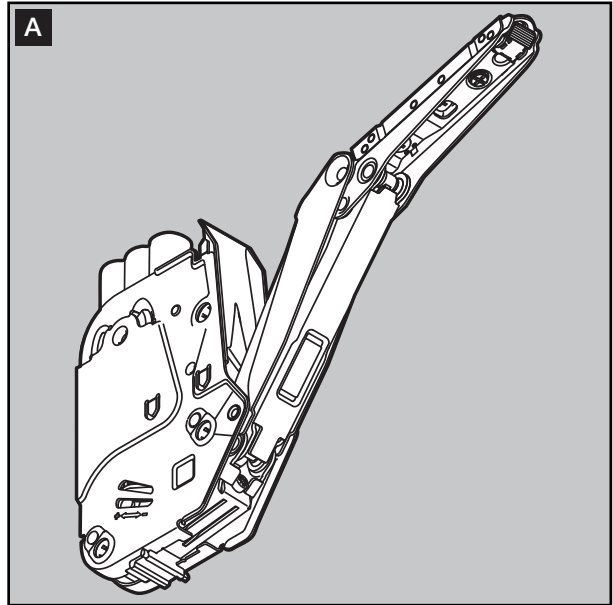

Regolazione orizzontale / Horizontal adjustment / *Réglage a l'horizontale*

Regolazione verticale / Verticale adjustment / *Réglage vertical*

Adjustment of lift-up doors / Réglage des portes à abattant

Regolazione anta ribalta

Adjustment of lift-up doors / Réglage des portes à abattant

	DA UTILIZZARE	DA EVITARE
Superfici Laccate/HPL/ Arock® e TSKIN®	panni morbidi in cotone o microfibra inumiditi con acqua o con prodotti naturali tipo quelli per la pulizia del vetro che non contengono solventi. Asciugare sempre con un panno morbido. Per macchie insistenti usare detergenti neutri diluiti con acqua	spugne ruvide e abrasive, pagliette metalliche; prodotti abrasivi o prodotti contenenti solventi, cloro o acidi, prodotti anticalcare e acetoni
Superfici in Nobilitato	panni morbidi in cotone o microfibra inumiditi con acqua o con prodotti naturali tipo quelli per la pulizia del vetro che non contengono solventi. Asciugare sempre con un panno morbido. Per macchie insistenti usare detergenti neutri diluiti con acqua	panni morbidi in cotone o microfibra inumiditi con acqua o con prodotti naturali tipo quelli per la pulizia del vetro che non contengono solventi. Asciugare sempre con un panno morbido. Per macchie insistenti usare detergenti neutri diluiti con acqua
Superfici in Cristallo Extrachiaro	panni morbidi in cotone o microfibra inumiditi con detergenti specifici per la pulizia del vetro. Asciugare sempre con un panno morbido	spugne ruvide e abrasive, pagliette metalliche; prodotti abrasivi o prodotti contenenti solventi, cloro o acidi, prodotti anticalcare e acetoni. Evitare la caduta di oggetti pesanti e l'appoggio di oggetti roventi
Superfici in Silestone®	panni morbidi in cotone o microfibra inumiditi con acqua. Asciugare sempre con un panno morbido. Per macchie insistenti usare detergenti neutri diluiti con acqua	spugne ruvide e abrasive, pagliette metalliche; prodotti abrasivi o prodotti contenenti solventi, cloro o acidi, prodotti anticalcare e acetoni. Evitare la caduta di oggetti pesanti e l'appoggio di oggetti roventi
Superfici in Pietra Naturale	panni morbidi in cotone o microfibra inumiditi con acqua o con prodotti naturali. Asciugare sempre con un panno morbido. Per macchie insistenti usare detergenti neutri diluiti con acqua	spugne ruvide e abrasive, pagliette metalliche; prodotti abrasivi o prodotti contenenti solventi, cloro o acidi, prodotti anticalcare e acetoni. Evitare la caduta di oggetti pesanti e l'appoggio di oggetti roventi
Superfici in Castmarble®/ Tecnooril®/Specchio	utilizzare panni morbidi in cotone o microfibra inumiditi con detergenti specifici per vetro/specchio. Asciugare sempre con un panno morbido	spugne ruvide e abrasive, pagliette metalliche; prodotti abrasivi o prodotti contenenti solventi, cloro o acidi, prodotti anticalcare e acetoni
Parti in metallo	utilizzare panni morbidi in cotone o microfibra inumiditi con acqua o con prodotti specifici. Asciugare sempre con un panno morbido	spugne ruvide e abrasive, pagliette metalliche; prodotti abrasivi o prodotti contenenti solventi, cloro o acidi, prodotti anticalcare e acetoni.

Maintenance / Use

	TO BE USED	TO AVOID
Surfaces Lacquered/HPL/ Arock® e TSKIN®	soft cotton or microfibre cloths damp with water or natural products without solvents. Dry with a soft cloth. For persistent stains use neutral detergents diluted with water	rough and abrasive sponges, metal wool; abrasive products or with chlorine or greedy solvents, anti-limescale products and acetone
Nobilitato surfaces	soft cotton or microfibre cloths damp with water or natural products without solvents. Dry with a soft cloth. For persistent stains use neutral detergents diluted with water	rough and abrasive sponges, metal wool; abrasive products or with chlorine or greedy solvents, anti-limescale products and acetone; products with thinners can deform the edges
EXTRA-CLEAR GLASS surfaces	soft cotton or microfibre cloths damp with water or natural products without solvents. Dry with a soft cloth	rough and abrasive sponges, metal wool; abrasive products or with chlorine or greedy solvents, anti-limescale products and acetone; Avoid to drop heavy objects and do not place hot objects on it
Silestone® surfaces	soft cotton or microfibre cloths damp with water or natural products without solvents. Dry with a soft cloth. For persistent stains use neutral detergents diluted with water	rough and abrasive sponges, metal wool; abrasive products or with chlorine or greedy solvents, anti-limescale products and acetone; Avoid to drop heavy objects and do not place hot objects on it
Natural stone surfaces	soft cotton or microfibre cloths damp with water or natural products without solvents. Dry with a soft cloth. For persistent stains use neutral detergents diluted with water	rough and abrasive sponges, metal wool; abrasive products or with chlorine or greedy solvents, anti-limescale products and acetone; Avoid to drop heavy objects and do not place hot objects on it
Castmarble®/Tecnooril®/ Mirror surfaces	soft cotton or microfibre cloths damp with water or natural products without solvents. Dry with a soft cloth	rough and abrasive sponges, metal wool; abrasive products or with chlorine or greedy solvents, anti-limescale products and acetone
Metal parts	soft cotton or microfibre cloths damp with water or specific products without solvents. Dry with a soft cloth	rough and abrasive sponges, metal wool; abrasive products or with chlorine or greedy solvents, anti-limescale products and acetone

	UTILISER	ÉVITER
Surfaces laquées/HPL/ Arock® e TSKIN®	<i>chiffons doux en coton ou microfibrés humides avec de l'eau ou des produits naturels sans solvants. Sécher avec un chiffon doux. Pour les taches persistantes utilisez des détergents neutres dilués avec de l'eau</i>	<i>éponges rugueuses et abrasives, laine de métal; produits abrasifs ou avec du chlore ou des solvants gourmands, des produits anticalcaire et de l'acétone</i>
Surfaces en Nobilitato	<i>chiffons doux en coton ou microfibrés humides avec de l'eau ou des produits naturels sans solvants. Sécher avec un chiffon doux. Pour les taches persistantes utilisez des détergents neutres dilués avec de l'eau</i>	<i>éponges rugueuses et abrasives, laine de métal; produits abrasifs ou avec du chlore ou des solvants gourmands, des produits anticalcaire et de l'acétone. Les produits avec des diluants peuvent déformer les bords.</i>
Surfaces en VERRE EXTRACLAIR	<i>chiffons doux en coton ou microfibrés humides avec de l'eau ou des produits naturels sans solvants. Sécher avec un chiffon doux</i>	<i>éponges rugueuses et abrasives, laine de métal; produits abrasifs ou avec du chlore ou des solvants gourmands, des produits anticalcaire et de l'acétone. Évitez de faire tomber des objets lourds et ne placez pas d'objets chauds dessus</i>
Surfaces en SILESTONE®	<i>chiffons doux en coton ou microfibrés humides avec de l'eau ou des produits naturels. Sécher avec un chiffon doux. Pour les taches persistantes utilisez des détergents neutres dilués avec de l'eau</i>	<i>éponges rugueuses et abrasives, laine de métal; produits abrasifs ou avec du chlore ou des solvants gourmands, des produits anticalcaire et de l'acétone. Évitez de faire tomber des objets lourds et ne placez pas d'objets chauds dessus</i>
Surfaces en PIERRE NATURELLE	<i>chiffons doux en coton ou microfibrés humides avec de l'eau ou des produits naturels. Sécher avec un chiffon doux. Pour les taches persistantes utilisez des détergents neutres dilués avec de l'eau</i>	<i>éponges rugueuses et abrasives, laine de métal; produits abrasifs ou avec du chlore ou des solvants gourmands, des produits anticalcaire et de l'acétone. Évitez de faire tomber des objets lourds et ne placez pas d'objets chauds dessus</i>
Surfaces en Castmarble®/ Tecnooril®/Specchio	<i>chiffons doux en coton ou microfibrés humides avec de l'eau ou des produits spéciaux. Sécher avec un chiffon doux</i>	<i>éponges rugueuses et abrasives, laine de métal; produits abrasifs ou avec du chlore ou des solvants gourmands, des produits anticalcaire et de l'acétone</i>
Parties en métal	<i>chiffons doux en coton ou microfibrés humides avec de l'eau ou des produits spéciaux. Sécher avec un chiffon doux</i>	<i>éponges rugueuses et abrasives, laine de métal; produits abrasifs ou avec du chlore ou des solvants gourmands, des produits anticalcaire et de l'acétone</i>
